The David Sheldrick Wildlife Trust

Your Official Elephant Mask for the International March for Elephants

Step-by-step

- Once you have opened the Elephant Mask file, we suggest that you print it off onto card or durable paper.
- Please cut out the mask safely and also the holes for the eyes.
- Now you can either apply a light piece of wooden material behind the mask (as seen below) to hold and place in front of your face as and when you wish.

- Alternatively, you can add 2 pieces of thick tape to the back of the mask (as seen below) then secure a piece of string/elastic. This way the elephant's ears stay out and look most effective.

Sticky tape

String/elastic
